3/4-7, 3 DAY SKI TRAVERSE HURRICANE RIDGE TO DEER PARK:

There are few places in the world where you feel more poised between sea and sky than you do along this 6,000 foot high trail. This is the highest section of trail in this region, above tree line for almost its entirety. Can you say views? Balanced on a knife-edge ridge for much of this ski traverse, you look off to the north and see Victoria, the Canadian Cascades, and Mt Baker. At your feet lie the Strait of Juan De Fuca, the towns of Port Angeles, Sekiu and Sequim, and the lovely Dungeness Spit. Look the other way and you are treated to views of Grand Valley with its string of lakes, and the numerous snow capped peaks of the Olympic interior, including the glacier-laden volcanic Mount Olympus. Along this ridge traverse we will be between 4,500' and 6,000' above sea level along which we will pass Steeple Rock, Eagle Point, Obstruction Peak, Elk Mountain, Maiden Peak and Lake, and Green Mountain. Most of these are possible climb and skis with the south slopes generally less steep than the north. This provides for precipitous overlooks to the north with pleasant descents south off the ridge summits. We will station a shuttle car at the Deer Park entrance gate at about 2,000' or wherever the snow line is, and start from the high end at Hurricane Ridge. I will organize the food but everyone will have to help carry the supplies. This is a traverse I have wanted to do for several years, hope you can join me! Provided: transit, ferry, lodging, meals. Dates 3/4-7 Cost \$250
