LARCH HILLS BC CANADA

The Larch Hills Nordic Society and cross-country ski area, is deep in the foothills of the Canadian Rockies. This extensive track system is just west of Golden and Revelstoke, the jumping off point for some of the most active helicopter skiing operations in all of Canada. This is also the west portal to Banff National Park. The touring center itself is home to some of B.C.'s finest ski trails. The track system boasts 125 km of trails with 43km groomed for skating and diagonal stride. The track system is over easy to moderate terrain so no long steep hills to climb. The track elevations start at 3,000' up to over 4,300'. The system provides a great combination of tracked and off track nordic skiing reminiscent of one of my all time favorite trail systems on the north rim of the Grand Canyon. There you could start out in the morning cutting your own tracks through the frosted and sparkling forest, then at the end of the day intersect a groomed trail for an easy glide back to the lodge. Provided: Airfare, transfers, lodging. Dates 1/9-13 Cost \$715
