SILVERSTAR & NICKEL PLATE

This is where it all began, five years ago we made our first Presidents' Day weekend trip to the Canadian Okanogan stopping at the remarkable Silver Star mountain, and the little know Nickel Plate Nordic. The Silver Star area has over 50km of nordic tracks that wind through the village and woods to the top of the alpine ski mountain. This system connects to the Sovereign Lake nordic club's network which comprises another 50km of trails for one of the most extensive networks of groomed trails in British Columbia. This might just be enough of a reason to come on this trip. However, we will be repeating our 2005 itinerary when we stopped to ski at Nickel Plate nordic, a trail system in the lower end of the Canadian Okanogan and one of the favorites of my friends Don Portman and Brett from Sun Mountain. The base elevation is 6,000' and the track system has 50k of tracks and 20k ungroomed and the atmosphere is decidedly low key. Because of the altitude Nickel Plate gets some of the best snow conditions in Canada! Alpine skiers bring your downhill gear as there are lifts at all three of our destinations. I would hesitate to say that the alpine skiing would be anything but a shadow of the quality of the nordic on this trip though. The third day's "icing on the cake" will be Manning Park until we have to hit the road for home. This is an all inclusive trip with food, lodging, all the skiing you can handle and the transportation. However you are on your own for trail passes as there are varying alpine/groomed/ungroomed and snowshoe opportunities at most of our destinations. Provided: transit, lodging, maps, meals. Dates: 2/12-15 Cost \$394
